Vermouth

The first vermouth was made in Turin in northern Italy in 1786 by Antonio Benedetto Carpano. In good quality vermouth, you should always be able to discern a slight bitterness from the herbs.

An essential ingredient is, of course, wormwood; the name vermouth is derived from the German word for wormwood, *wermut*. Now a staple aperitif in France and Italy, it can be found from countries all over the globe. Enjoy one chilled before starting your meal tonight!

Virginia

With a history of winemaking dating back to the mid-17th century, Virginia has seen a multitude of styles and techniques used. While early vigneron were plagued with issues stemming from disease, pests, and Virginia's harsh climate, it has prospered since the mid 1950s. A revolution of quality winemaking can be found throughout the state focusing on Bordeaux varietals and sustainable farming practices.
